Subject: Regarding : Electoral review

To whom it may concern:

- Please note that I support the notion that voting in a State Election should be optional. I feel it would be beneficial for it to be optional to vote in all levels of election (local, state and federal).
- Please note that I strongly support the introduction of electronic voting. I would suggest that people use their electoral role number and be invited to register as an electronic voter in an upcoming election. This would allow for the creation of a password and registered voting account for those that choose to take up the option.

Kind Regards
Shanagh
