**Subject:** No to voluntary voting system!

Please do not create a voluntary voting system. Regardless of the lazy part of people who would adore not having to complete this chore, it is what stops us from the over-emotional advertising that the Americas allow.

My sister has a autistic child and voting is a huge inconvenience. However, its so important for people like her to vote, because I know i'm not watching who is looking out for the disabled crowds. Please please please do not allow voluntary voting system.
