NO. Don't let this Suspected reprobate government change this Law.  
Yes everyone might think it's a good idea but there are obvious flaw's in the process.  
like paying people to go and vote for a particular candidate.  
Dont let this Law Change or there will be social unrest.  
The People are not concerned about the compulsory voting, only the dissociated Government.

Because of the Landslide victory of LNP, The issue of credibility of perceived quality of messages delivered(Illusionary).  
Seriously
