Re proposed Doing away with Voting in State of Q.L.D

It should be the Reverse make Voting more Compulsory

There are so many Peopel in This State now, that don't Vote as it is, in Any Elections. Yet Live on Pension or Unemployment Benefits as it is.

Yet don't vote in any Elections.

Why should it be made even more easier. To live the good life. But not react to vote in a Gov

Shure Bring in Postal Voting. I have been Postal Voting for many years

But there are reasons Distance from Booths & maybe not abel to get to a Booth owing to Weather Conditions on the day

As for peopel not been abel to understand Postal Voting what a laugh it is so easy

All yours read to do, is obtain from  
Centrelink records of People  
receiving Benefits & what area they  
live & address. Then you will see, at  
voting time, who votes & who doesn't &  
what names are crossed off the  
List etc

Lets make it (Tougher Not Easier)
